Corrapol®-BT : Top Wall Flashing

Our new Corrapol®-BT Top Wall Flashing is another innovation designed with ease of installation and quality finish in mind. With its unique bi-angled shape the Top Wall Flashing works with multiple roof pitches making it easy for any installer to add to their roof. The unique patented and/or registered design foam gaskets help create a firm seal on the Corramet® sheets, whilst working with any pitch, ensuring strong waterproofing across the top of the roof.

Corrapol®-BT : Super Ridge Bar

The Corrapol®-BT aluminium Super Ridge is another game changer in the corrugated market. Protecting the ridge of a roof is crucial and with the installation of the Corrapol®-BT Super Ridge you can add years of lifespan to your roof. Designed with integrated pre-formed foam gaskets to fit the corrugations of the Corramet® sheets, the Corrapol®-BT Super Ridge is an installer's dream. The patented design allows for a good variety of roof pitches with the gaskets being flexible enough to seal against the Corramet® sheets, and create a longer lasting superior ridge solution.
